

QUALITY POLICY

It is the policy of The Company to apply Quality in every aspect of its business management. Our aim is to comply with applicable requirements and ensure the complete satisfaction of our customers through providing excellence in all our construction projects.

We are committed to continually improving the effectiveness of the quality management system through the use of the quality policy, quality objectives, audit results, analysis of data, corrective action and management review. To this end we will seek our customers and employees views and ideas on the effectiveness and improvement of our Quality Management System.

The Directors of The Company are determined that our customer requirements are met. To achieve this, our customers' perceptions of The Company will be measured and reviewed along with other stated objectives and this quality policy during Quality Management System Review Meetings.

The Quality Management System refers to activities carried out at The Company, conforms to the requirements of BS EN ISO 9001 and is the minimum acceptable to the Board of Directors.

The Quality Management System also ensures that the quality of the Company's products and its good name can increase, creating greater marketing opportunities, company growth and job security.

All employees are directed to ensure that they are fully conversant with the company's Quality Policy and Objectives.

The quality policy will be made available to interested parties upon request.
